Email: **filafifithu@gmail.com**

Technology Centre trained at: **Central Footwear Training Institute, Agra**

Course undertaken: **1 Years PG Diploma in "Footwear Technology "**

Year Passing: **2012**

I did my Post Graduate Diploma in Footwear Technology from CFTI Agra in 2012 with an interest to become a shoe designer. I was able to get the best out of the course within a limited span of time with the help of the dedicated faculty of every department of the institute. The emphasis on practical at CFTI proved to be of immense help in my career. I also have to mention that my designing teacher Mr. S. K. Bhatia's guidance in particular has helped me personally in an extraordinary way in establishing my confidence to becoming a designer. I went on to work as an Assistant Designer in a private firm in Noida for a while before launching my own label of semi luxury footwear for women "Filafi Fithu" in late 2013. Currently, our shoes are being manufactured only in Italy but we are in the process of producing in India as well for an affordable range that is in the line up. We do retailing in India and Italy and have wholesale presence in parts of Europe.

Name of enterprise: **“GAUTAM STYLISH SCARPE”**

Name of owner: **Meera Samadhiya Gautam**

Address: **203 Surya Apartment, Lawyers Colony Agra UP.**

Telephone: **9045270177**

Technology Centre trained at: **Central Footwear Training Institute, Agra**

Course undertaken: **1 Years PG Diploma in “Footwear Technology ”**

Year Passing: **2012**

Myself, Meera Sanadhya Gautam , settled in Agra, the city of Tajmahal and hub of Leather (shoe) business from which many people earn their bed and butter.

As generally happens after my general education I had been enjoying my family life but One day my husband Mr. Anil Gautam, who in self-entrepreneurship, ignited the workmanship/ entrepreneurship in me and constantly encouraged me. All these things put me in new era of thought then I decided to do something but what? After a marathon exploration we decided to enter in to shoe business. We decided to go from the root for which sound knowledge is the base stone. In quest of the best, we discovered that C.F.T.I is the best center for shoe knowledge. This paved my way to join it, which after reaching at this stage I can affirm that it mean a lot for me. I joined C.F.T.I., Agra (2011) and was Single Girl In the Batch of 30 students. What I learnt from CFTI was remarkable

Now, my life took threshold change and new era started. To be a successful entrepreneur, one should be an effective worker too. Following this theory, I joined a job at Agra during 2012, but it was only stepping stone. My passion for entrepreneurship and fascination to prove my worthiness diluted all social taboos prevailing in our society especially in rural India that women is a home asset.

To strengthen the flag of women empowerment, I started my own business in June 2013 with the name “GAUTAM STYLISH SCARPE” at Agra. All my way was not smooth sailing, there were various odds waiting (arrangement of materials & components, labour, finance, market etc) on the way. My first sample sent to the market was highly appreciated by the market expert and the probable buyers, got first order of 100 pairs. On successful delivery in time with quality, many orders were place, We developed our horizon, put all our effort and did those with TAN MAN & DHAN. It was a continuous process, we were growing day by day and One day our dream took real shape when, on market demand, we promoted our brand “BUTELLO”. Today, we are capable enough to design, produce and sell at least 200-300 pairs, per day with about 35 co-employees.

This achievement is not an end, it's just a comma, we look forward for many full stops, paragraphs, success stories..... Sky is our limit. But, we not only want to prepare thousands of pairs of shoes per day but want to see people of round the globe owning it with pride that they have “BUTELLO” in their shoe case and rest have a desire/ a dream to wear the shoe of “BUTELLO” All the time, I would like to say.

“To make your dreams come true, stop dreaming and start realizing it”
